AUTOMATION

How OPERAVA Business Automation Connects Workflows for Global Clients

Bridging People, Processes, and Technology

THE END-TO-END AUTOMATION FLOW

1. BUSINESS NEED & GOALS

A business identifies repetitive work, bottlenecks, and goals for its automation initiative.

2. PROCESS DISCOVERY & AGREEMENT

Map the workflow; define scope, success measures, data needs, owners, and approval rules.

3. SOLUTION DESIGN & INTEGRATION

Design triggers, decisions, integrations, security controls, and human-review paths.

4. BUILD, TEST & LAUNCH

Configure the workflow, test normal and exception cases, train users, and launch in phases.

5. MONITORING & CONTINUOUS IMPROVEMENT

Track reliability, exceptions, and results. Resolve issues and refine the workflow over time.

6. CONNECTED BUSINESS OUTCOMES

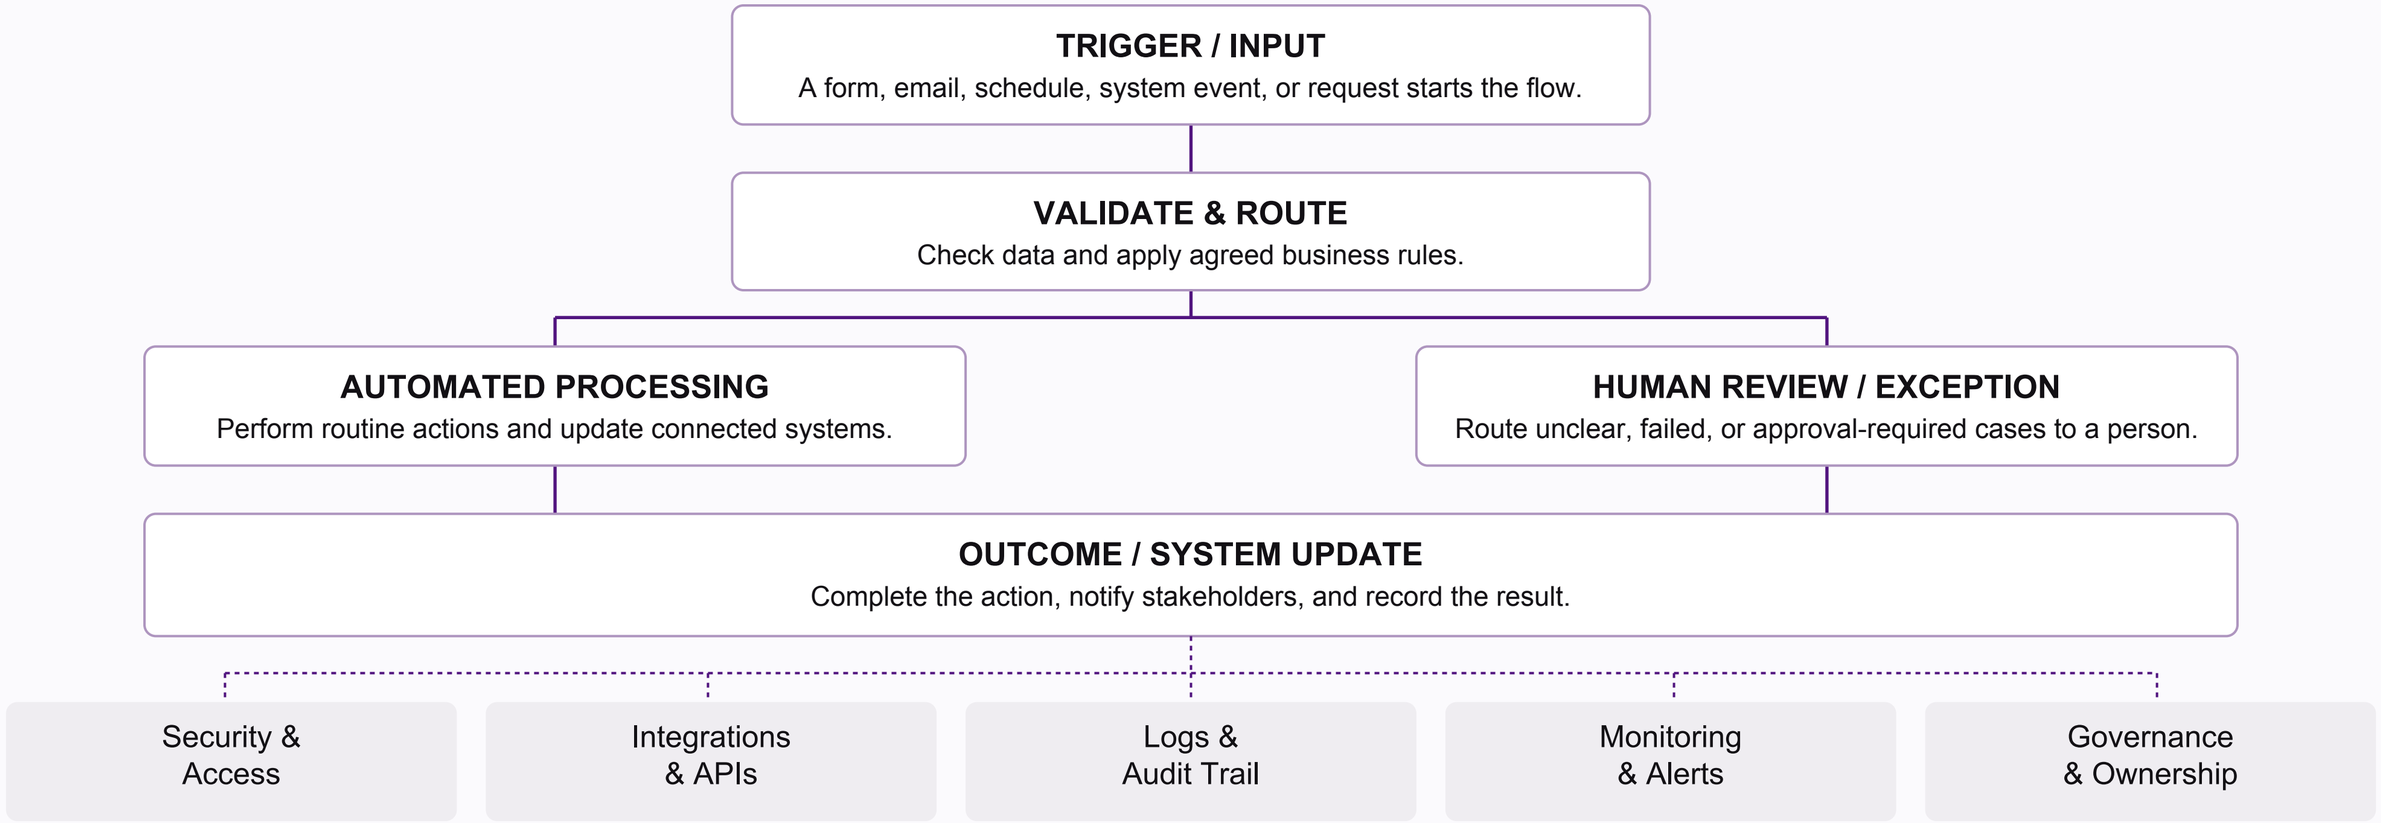

Teams spend less time on repetitive work and can focus on customers and higher-value tasks.
